

Vision Technology Fair

Friday, June 16 from 9 am-1:30 pm at Cleveland Sight Center

Changes in your vision shouldn't stop you from living the life you want. This fair is designed specifically for individuals who are 55+ and will feature a variety of booths that highlight the technology, support and tools available to help you continue to do all the things you love.

We know technology can be difficult to learn so we will have specialized staff providing workshops throughout the day on various topics:

- How to use the accessibility features on your smart phone, Alexa and Google Home devices
- The best way to use lighting to maximize your vision
- Updates in smart home technology
- How to decide which magnifier is best for you
- Services for seniors over 55
- And more!

Each participant will receive a welcome bag and will be entered into a raffle to win a Ruby Magnifier! The Ruby (pictured above) is a handheld electronic magnifier.
